$ python hello_world.py
Hello World
Traceback (most recent call last):
  File "H:\Pythonprojects\fundamentals\fundamentals\hello_world.py", line 2, in <module>
    print(x)
         ^
NameError: name 'x' is not defined

Deven@DESKTOP-NPMPC09 MINGW64 /h/Pythonprojects/fundamentals/fundamentals (main)
$ python testing_python.py
Welcome to Python!
This is a loop printing 5 times
x is: 1
x is: 2
x is: 3
x is: 4
x is: 5
Today is: Wednesday
Not quite there yet.
